5 — 17 August 2019

The CTG Collective, whose members and collaborators in this instance hail from New York, Japan, Israel, Surinam, Zimbabwe, and Finland, present their introductory exhibition at the Serlachius Museums in Aleksanterin Linna Gallery. The performance, video, ceramics, and sculptural works highlight the group's reflections on their time in Mänttä over the past two weeks. Notions of folklore, ecology, and immigration take center stage as the artists bring their personal histories into conversation with the Finnish cultural and political landscape.
